### **DETAILED ACTION**

# **Priority**

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

# Specification

The disclosure is objected to because of the following informalities: page 7, lines 9 and 11, incoupling elements are labeled 34 and should be labeled 24.

Appropriate correction is required.

# Claim Objections

Claims 5-23 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and /or cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, claims 5-23 have not been further treated on the merits.

# Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: Instant application claims and discloses a backlight unit that includes a light guide with total internal reflection, a light reservoir for feeding light guide with light, an output surface, an input surface and incoupling means on input surface of light guide.

Claim 1 has a backlight that includes a light guide wherein light from one or more light sources is constrained by total internal reflection and from which light may be output to provide backlighting for a display screen, and a light reservoir for feeding light guide with light, light

Application/Control Number: 10/527,891

Art Unit: 2875

guide having a substantially planar construction and including an output surface from which light may be output and an opposing input surface disposed to receive light, input surface including incoupling means rising therefrom and extending into light reservoir, incoupling means having at least three mutually non-coplanar sidewall sections extending transversely from input surface, each sidewall section covering a different part of input surface, light reservoir being arranged such that light passing through one area of light reservoir is capable of entering light guide through each of sidewall sections. The prior art of record does not show and would not have

Page 3

mutually non-coplanar sidewall sections extending transversely from input surface, each sidewall section covering a different part of input surface combined with total internal reflection is not in

suggested the limitations in claim 1. In particular, incoupling means having at least three

the art of record. Claims 2-4 depend directly or indirectly from claim 1, add further limitations

and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure are USPN 6,874,900 B2 to Hsieh and USPN 4,487,481 to Suzawa.

### Ex parte Quayle

This application is in condition for allowance except for the following formal matters:

Art Unit: 2875

The objections to the specification and to the claims noted above.

Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James W. Cranson whose telephone number is 571-272-2368. The examiner can normally be reached on Mon-Fri 8:30A.M.- 5:00P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandy O'Shea can be reached on 571-272-2378. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
